Hi Brenda,

It's been a while since we have communicated and in that time I've heard that the EPA is finally getting involved with cleanup from the Wilcox Refinery. There was some footage on channel 6 news that ran about a month or so ago. Any information would be greatly appreciated.

Thank You,

(b) (6)

 Hi (b) (6)

It was good talking to you on the phone today. As I indicated during our conversation this morning that I have been in communication with OCC and OERB regarding your property. Based on the map that you sent, your property is outside of the boundary of the Wilcox Oil site that EPA and ODEQ are currently investigating. It appears your address may be across the street from the Ohio Refining Site which EPA investigated in 1998/2000 time frame. I am attaching the Site Inspection report and the EPA decision document for Ohio Refining. I touched base with Chris Ruhl and we will continue to look into this for you and respond with more definitive information once it is available. Let me know if you have any additional questions.

Dear Ms. Cook,

I was wondering if you have any information for me regarding the oil on my property. Any help would be greatly appreciated.

Thank you,

(b) (6)

(b) (6) -

Thanks for sending me your photos. I believe that EPA is in discussions with the Oklahoma Department of Environmental Quality (ODEQ) about the former Wilcox Refinery site. I don't have any information but Brenda Cook is our lead for these discussions and I have cc her on this message. She can be reached at (214) 665-7436.
